		2007*	16,174,521	35,910,192	2.22	

*EIA records -721 MWh of net generation in 2007, -412 MWh in 1992, -916 MWh in 1991, and -1468 MWh in 1990 for PacifiCorp's Gadsby plant under coal. This seems to be a mistake, but was added here so numbers balanced between tables.

^IPP burned 634,384 tons of sub-bituminous coal in 2005, 167,345 tons in 2006, and 44,846 tons in 2007

Note: EIA's 2005 coal consumption numbers are incorrect, 634,384 tons of sub-bituminous coal burned at IPP was double counted. The correct numbers are recorded above.
